

DIGITAL RESOURCES FOR A DIGITAL CITY

BRLA.gov: We've Got A New Look

In 2018, Mayor Broome announced the launch of an all-new website and brand for our City-Parish government, featuring a new name, new features, and a new way of doing business with Baton Rouge residents, replacing the former BRGov.com site that was more than 20 years old.

OPEN DATA BR

Open Data BR: Baton Rouge's Official Open Data Portal

Over the past several years, the City-Parish's open data efforts have grown to become a leader for mid-sized communities across the U.S., with more than 30 unique datasets and 35 million rows of data, while serving as the foundation for related platforms and applications such as Open Checkbook BR.

Open Data Policy: A Government Mandate for Transparency

In late 2017, with the support of Bloomberg Philanthropies and the Sunlight Foundation, Mayor Broome and the Metro Council established a formal open data policy for City-Parish operations, mandating an "open by default" approach to City-Parish data for the first time ever.

>> BRLA.GOV/TRANSPARENCY

Our City-Parish is dedicated to creating a more efficient, effective, and responsive City-Parish government using technology at all levels. Under the leadership of Mayor-President Sharon Weston Broome and through our Department of Information Services, we are actively advancing programs, platforms, initiatives, and policies focused on developing Baton Rouge into a hub for digital and technological innovation. Learn more about some of our latest digital initiatives.

Stay #RedStickReady, Baton Rouge

Our Red Stick Ready app, available as a free download on Apple and Android devices, provides residents with an "on-the-go" resource for official, real-time communications and updates during emergency response and disaster situations – including push notifications and more.
